

Alaauddin Adnan Khader

Licensed Pharmacist | Pharmacy & Pharmaceutical Warehouse Manager

+974 6659 6040 | Aladmsco@hotmail.com | Doha, Qatar

Active pharmacist licences in Qatar and Saudi Arabia | Open to pharmacist and pharmaceutical warehouse roles in both markets

PROFESSIONAL SUMMARY

Licensed pharmacist and pharmaceutical warehouse and pharmacy operations manager with over 30 years of experience across Saudi Arabia and Qatar. Brings 22 years of multi-branch pharmacy management, dispensing, patient counselling, medicine procurement, and expiry control, plus more than 3 years managing pharmaceutical and medical-supply warehouse operations. Skilled in FEFO stock rotation, controlled storage, stock accuracy, SAP, freight and customs-clearance coordination, SOP execution, and team leadership. Across Qatar warehouse roles, managed operations involving approximately 3,000 SKUs, facilities of up to 1,800 sq. m., inventory valued at nearly QAR 25 million, and 150-200 deliveries per month. Maintained approximately 98.9% stock accuracy and helped reduce expired or damaged stock by approximately 25%. Seeking pharmacist, pharmacy-operations, or pharmaceutical warehouse-management opportunities in Qatar or Saudi Arabia.

CORE COMPETENCIES

Pharmacy Practice: Prescription dispensing, patient counselling, medicine-use guidance, product selection, temperature monitoring, and community pharmacy operations

Warehouse & Inventory: Pharmaceutical receiving, controlled storage and dispatch; cycle counts; FEFO; stock accuracy; expiry, ageing, dead-stock and loss reporting

Quality & Logistics: GDP-aligned storage practices; temperature, humidity and light controls; SOP implementation; non-conformity follow-up; freight and customs-clearance coordination

Systems & Leadership: SAP; ERP/WMS; Excel reporting; coding and traceability; delivery scheduling; multi-branch pharmacy and warehouse team supervision

PROFESSIONAL LICENCES

Licensed Pharmacist - Qatar Ministry of Public Health; active through 23 Dec. 2027

Registered Pharmacist - Saudi Commission for Health Specialties (SCFHS); active through 5 Oct. 2028

CAREER HIGHLIGHTS

- Managed combined Qatar warehouse operations involving approximately 3,000 pharmaceutical and medical-supply SKUs, facilities of up to 1,800 sq. m., and inventory valued at nearly QAR 25 million.
- Coordinated approximately 150-200 deliveries per month while supporting product traceability, timely order fulfilment, and controlled-storage requirements.
- Maintained approximately 98.9% stock accuracy and helped reduce expired or damaged stock by approximately 25% through FEFO rotation, expiry monitoring, cycle counts, stock transfers, and corrective action.
- Managed pharmacy operations across 20 branches and supervised approximately 45 pharmacists and support employees.

PROFESSIONAL EXPERIENCE

Pharmaceutical Store Manager

Feb. 2026 - Jul. 2026

Jeezan for Trading and Transportations

Qatar

- Monitored daily stock, ageing, expiry, and committed-customer delivery reports with the Gulf Warehouses Company team to maintain inventory visibility and service levels.
- Coordinated with local and international suppliers' logistics teams on freight, customs-clearance, and shipment-receiving processes.
- Verified shipment quantities, dimensions, storage conditions, labelling, pallet counts, freight modes, and payment documentation before receipt.
- Used SAP for goods receiving, purchase-order handling, stock transfers, inventory checks, expiry reporting, invoicing, delivery notes, and stock adjustments.

Store Manager - Pharma, Medical Machines & Accessories

Feb. 2023 - Jan. 2026

Gulfmed Medical Supplies Co.

Doha, Qatar

- Managed end-to-end store transactions through implementation and execution of approved Standard Operating Procedures (SOPs).
- Ensured correct receiving, storage, and stock rotation based on location, packaging, temperature, light, humidity, and first-expiry-first-out requirements.
- Inspected incoming stock against invoices and delivery notes; tracked shipments, delivery status, damages, discrepancies, non-conformities, and order issues.
- Maintained temperature logs and conducted routine checks of storage areas, refrigeration, air-conditioning, cleanliness, and equipment condition.
- Optimised warehouse layout and space utilisation, established coding and storage criteria, strengthened material traceability, and reviewed procedures for efficient output.
- Supervised delivery scheduling, warehouse safety, general maintenance, staff administration, and weekly team meetings.

Pharmacy Manager

Dec. 2000 - Dec. 2022

*Al Dawa Medical Services Co.**Al Ahsa, Saudi Arabia*

- Managed pharmacy operations across 20 branches and supervised approximately 45 pharmacists and support employees, including work scheduling, staff guidance, and branch coordination.
- Dispensed prescription and non-prescription medicines, provided patient counselling and medicine-use advice, and maintained high customer-service standards.
- Oversaw purchasing and inventory for medicines, cosmetics, infant nutrition, supportive products, and hygiene items, maintaining stock availability and shelf organisation by pharmacological action.
- Prepared Excel-based expiry controls, coordinated inter-branch stock transfers to reduce expiry exposure and damaged goods, and maintained daily pharmacy and refrigerator temperature records.
